

# Desert Cut-Up Sheets

Read Me  
First  
Introduction

The *Inked Adventures Desert Cut-Up Sheets* PDFs are a print-and-cut-up style accessory, designed for tabletop roleplay, but it can also be used with skirmish wargames using miniatures.

The grid is set to  
**1in=5ft for 25/28/30mm**  
play when printed at 100% scale.

We recommend printing to straight onto card, photopaper or paper (A4 or Letter size).

## How to use the Cut-Up Sheets

The *Desert* sheet (sand dunes, p1) can be printed multiple times to create tiles which when brought together will create a large play area (like a battlemat). The *Canyon Rocks* sheet can be cut-up and used as counters to represent rocky scenery. The *Rocky Outcrop* sheet is a set piece, a natural ziggurat, best left whole, but referees can experiment by cutting it into different shapes.

A PDF containing black and white line art has been included in cases where printer ink is limited. These designs can also be fun to colour in with paint or felt pen.

## 3 PDFs (9 sheets)

The PDF files are prefixed with "A4" and "Letter" to denote the page format to print to.

1. Desert (colour)
  1. Desert (dunes, sand)
  2. Canyon Rocks
  3. Rocky Outcrop
2. Desert (black and white line art)
  1. Desert, line art only
  2. Canyon Rocks, line art only
  3. Rocky Outcrop, line art
3. *Bonus PDF Red Planet Desert* (colour, Martian shades)
  1. Red Planet Desert
  2. Red Planet Canyon Rocks
  3. Red Planet Rock Outcrop

## Graphics Files

### Design your own desert tiles

Editable PNG graphic files have been included should you wish to customise your own desert tiles in an art program of your own choosing. These designs work well when imported as layers. Using a trim tool, the top layer -perhaps the canyon graphic- can be trimmed away revealing the desert sand layer beneath. In some programs you may need to activate "transparency" to do this, or use a "mask" tool. Alternatively, the files can be cropped to create scenery counters for a dungeon mapping application.

### The Graphics Files Zip Folder:

9 cropped image files, PNG, 300 DPI, 2100x3000px

### Hand drawn art disclaimer

The art in this pack was hand drawn on paper and then scanned into a computer whereupon colour was added. In its use, we cannot guarantee the exact accuracy in dimension or the "joining" precision that is standard in some computer generated art. Despite this, we hope that this product retains a "rough and ready" charm for the improvising referee for whom the product is intended.

**Usage and Copyright:** Inked Adventures and the artist Billiam Babble retain the rights to the original art work supplied herein. The customer is purchasing this product for "personal use" only – or to share with a small playing group – within reasonable limits. If you would like to use any element of this pack in a commercial or free-to-use product, please do not hesitate to contact Inked Adventures to discuss options. Thank you for buying this product. May your dungeons (and deserts) be beautiful! © Art / Desert cut-up sheet PDF contents and files – Inked Adventures / Billiam Babble 2014
